IFA 2016: Aiptek shows P800 - first HD projector with integrated 360° sound system and high-performance Android tablet - in Berlin

At this year's IFA, Aiptek presents in hall 12, booth 122 the world's first 800 lumens HD projection system with a professional audio system and Android tablet.

Headlined with the top-embedded 5" inch high-resolution IPS touchscreen tablet, it is powered by the Android operating system. Beneath the touchscreen, the enclosure of P800 features a sleek and seamless unibody with a stunning anodized aluminum finish.

A unique quad directional 8 speakers arrangement, at 40 watts, boasts professional acoustics combining powerful bass with clear high and mid tones, creating a spectacular 360 degree listening experience within any environment.

With the DLP projector brightness rated at 800 lumens, P800 is capable of creating stunning visuals at a native resolution of 1280 x 800 pixels (WXGA). Projected screen size can beam content up to 120 inches (305 cm) with bright, vivid, sharp and delivers precise color tones for cinema quality familiarity. Content from smartphones, notebooks and Co. can be projected via an HDMI cable, a Wi-Fi, Bluetooth or USB interface.

With dimensions of only 196 x 155 x 155 mm, weighing at 2.5 kg, P800 conveniently fits into a briefcase, carry bag and backpack for on the go portability. Paired with a hefty 36.000 mAh battery with approximately 4 hours usage, P800 creates a perfect visual and aural experience in any location whether the living room, board room or the great outdoors.

Aiptek P800 will be available after IFA as special edition at MSRP 1199 Euro and will include additional to the standard accessories – remote control, power adapter, AC cable and manual – a bag and an additional memory of 64GB. MSRP of the standard version with 16GB memory is 999 Euro.
